Heavy Receipts of Hogs and Quality Fair.

TOPS DROP TO \$4.00

Cattle Market Steady With Light Trade.

The Wichita hog market yesterday was to the extent lower in sympathy with the other western markets. The receipts of hogs yesterday were lower and none of the big receiving points showed any degree of strength, but on the contrary they all reported a downward tendency. Some gave out early a 5 to 10 cents lower. This market was fully in sympathy with the rest, and the sales made here were well in line, as compared with the other markets, and this point held its own very well. It was a heavy day in point of receipts, and the trade was heavy and the business done with a spirit of vim and dash very refreshing after the dullness of the past week. Twelve cars of hogs passed through the scale and this was just twice as many as the day before, and many times the amount received for a long time past. There was a heavier run of hogs, especially in the car division, and this swelled the volume of receipts to a degree which was very satisfactory all around. Added to this was a very fair supply of wagon and local stock, and all of them sold at the best prices possible in conformity with the other western markets. The receipts nearly reached the level of the previous week, and the market was well supplied. Dull packing company took them all, and paid good, strong prices for them, as compared with the best prices elsewhere. The quality of the hogs was fairly good for the day, there being few cut-outs or sorts, and while there was nothing of a special fancy, it all sold very well. The average weight was 4 pounds heavier than that of Monday, and the quality not much different, although there were many more hogs in yesterday. It was a good day yesterday in point of activity and business done, and the lower prices were simply in sympathy with the rest of the market.

SHIPPERS AND NOTES.

Mr. Ben Forrest of Anness was a shipper of about the best of the hogs yesterday, they being heavy of very good grade and selling at the top of the day. Mr. Clark of Andover was a shipper of a car load of hogs of medium weight, which sold without duck at the top of the day. John Kirk, the veteran shipper of hogs from Klamath county, reports today that he sold a car load of hogs at the top of the day. Port Kell had in a mixed car, the hogs being heavy and selling at the next to top prices. Whitmer Bros. of Conway Springs, were shippers of medium of fair grade which sold at the top of the bulk. Burdell & Connell were shippers of medium which sold at the top of the bulk. John Ratcliffe of Cunningham was in with a car load of heavy hogs which sold without duck at the top of the day. Charlie Dorsey of South Haven was in person at the yards with a car of medium which sold well at the next to top prices. Martinale & Co. of Tonkawa, sold out well at good prices. O. Yaman, of the firm of Y & Yaman, of Alameda, was in person with a car of hogs, which sold at the top of the day. The local packing demand yesterday was very keen, and every hog of the added weight and quality in the market was extra heavy supply and the demand was taken by the local market. A significant suggestion of the buying capacity of the Wichita market, eleven cars were bought by local and all wagon hogs. The roads being the hauling yesterday were as follows: Santa Fe, 2; Chicago & North Western, 1; Rock Island, 1; Missouri Pacific, 1; and 1 each from the Rock Island and the Pecos.

4.45; common to good light weights, \$4.15 to \$4.45; pigs, \$3.75 to \$4.15.

Sheep.—Trade in sheep and lambs was slow at the close of the day. The rapid accumulation of stock and a sharp break at Liverpool were the weakening influences. Liquidation was heavy. The break in wheat caused the downfall of coarse grains, corn closing with a loss of 5/8c and oats 1/2c. Provisions ruled dull and closed practically unchanged.

A decline of 1/2c at Liverpool and favorable crop reports put wheat traders in a bearish temper at the opening. High ocean rates were also against the market, and the longs began to unload at the outset. There was not a great deal of trading, however, as the break has been such for the last few days that the trade was rather cautious, but liquidation stopped further decline of wheat. On the market spot below prices.

December opened 1/2c lower, at 70 1/2c, and 1/2c higher, at 70 3/4c. It recovered to 70 1/2c on covering by shorts, settled a small fraction and then for an hour advanced to 70 3/4c, with business during that time almost at a standstill. During the latter part of the session and in sympathy with the decline in price on covering induced by heavy clearances and a report that India had commenced exporting wheat, the advance did not hold, however, as an increase of 5/8c in bushels in the world's visible supply was reported. The close was at 70 1/2c.
